PROFILE

Senior iOS Software Engineer & Team Leader Mobile Senior iOS Software Engineer with expertise in enterprise mobile applications and team leadership as Mobile Department Leader at KOSIGN. Skilled in modern architecture patterns and mentoring. Seeking advanced studies in AI and emerging technologies.

EDUCATION

2025-2027

Master's degree of Science,
Computer Science

Asia Euro University

- Relevant Coursework: Database Systems & Information Modeling, E-Commerce Technology, Advanced Network Design, Statistical Modeling & Analysis, Research Methodology & Design, Programming Principles.

2011-2016

Bachelor of Science, Computer
Science

Royal University of Phnom Penh

- Relevant Coursework: Foundation in algorithms, data structures, Java Basic, Java Advance, Basic net work, C##, Basic Web development, and software engineering principles.

2016-2017

Advanced Software Development

Korea Software HRD Center

- Advanced iOS Development(Swift/UIKit,Xcode)
- App Development with Java (Spring Boot)
- Foundations of Web Application Development(HTML, CSS, JavaScript,Git source controll) Responsive design, basic back-end concepts.

EXPERIENCE

2017-Present

Senior iOS Software Engineer &
Mobile Team Leader

KOSIGN [Korea Software
Innovation Global Network]

- Lead development of enterprise-level iOS applications utilizing Swift and SwiftUI.
- Oversee team operations as Leader of the Mobile Department.
- Implement and optimize modern architecture patterns (MVVM, Clean Architecture).
- Pioneered adoption of SwiftUI for UI development across multiple projects.
- Supervised project delegation and provided mentorship to junior iOS developers.
- Recognized with "CEO AWARD WINNER" (December 2024) for contributions to iOS development.

2021-2023

iOS Software Engineer

Bizplay(비즈플레이)

- Supervised project delegation and provided mentorship to junior iOS developers.
- Oversee team operations as Leader of the Mobile Department(South Korea).

SKILLS

Application Skills

Language Skills

HOBBIES

Cinema

Music

Video games

Theatre

Books

Travelling

RESEARCH INTERESTS

- Artificial Intelligence integration in mobile applications
- Machine Learning for personalized user experiences
- Advanced Mobile Architecture design patterns
- Emerging Technologies in software development
- Cross-platform Development methodologies

COVER LETTER

ABC Name

Director, Department Development

[Company Name]

[Company Address]

Dear Sir,

I am writing with great enthusiasm to express my interest in the **[Specific Job Title, e.g., Software Developer, Mobile App Engineer]** position at **[Company Name]**, which I discovered on **[Platform, e.g., LinkedIn, company website]**. With a Master's degree focused on modern system design and hands-on experience in full-stack mobile development, I am confident I possess the technical agility and problem-solving mindset to contribute effectively to your team.

In my recent advanced studies, I immersed myself in the architectural principles behind scalable systems, taking courses in Database Systems & Information Modeling, E-Commerce Technology, and Advanced Networks. This theoretical foundation is directly complemented by my practical development skills. I have built proficiency in cross-platform mobile development, including advanced iOS applications and Java-based Android development, as well as the core principles of web application development.

What excites me most about the opportunity at **[Company Name]** is **[Mention 1-2 specific things you know about the company or its products]**. For example: "**your innovative approach to...**" or "the challenge of working on **[Specific Product/Service]"**. My background in [mention a relevant skill from your list, e.g., statistical modeling or research methodology] has equipped me with a data-driven approach to development, ensuring that solutions are not only

Sincerely

Nem Sothea

Senior ios Software Engineer
